

PTC Comp

Family	Model	Input Tokens	Output Tokens	Total Tokens	Credits Used (USD)	Credits Used (Rs.)	Time Consumption
Anthropic	Sonnet 4.5	10223	623	10846	0.04	3.82	15.35 sec
OpenAI	GPT 5.6 Terra	5167	174	5341	0.012	1.19	8.81 sec
OpenAI	GPT 5.6 Sol	5150	213	5363	0.012*	1.19*	8.87 sec

GPT Sol 5.6 is 50% off for now (28 Aug, 2026) so this price will double down the line.

GPT 5.6 Terra is faster and cheaper.

Though technically, Claude 5 Sonnet is cheaper than Claude Sonnet 4.5, Sonnet 5 is more verbose than 4.5.

Recommendation : Use PTC-OpenAI.. More specifically, we can use a router to determine which model the request should be route to.. But this is way down the line (A router would need to be fine-tuned).
